In my kit DENISE R A B O R

We delve into the kit of makeup artist and founder of WOW Beauty, Denise Rabor, to discover which Salon Services products she can't live without

1. Trilogy Certified Organic Rosehip Oil, **£13.79*:** Rosehip is great for rehydrating skin that needs a good moisture boost. With a gorgeous texture, the natural ingredients make it highly effective at tackling all types of skin concerns - from wrinkles to scars.

2. Lord & Berry Twistick Sheer Lipstick in Rock'n Rose, £10.49, €12.59: This is one of my favourite products and is always included in my make-up bag. It's a 3-in-1 sheer lipstick which combines the moisturising benefits of a lip balm with a colour lipstick and a gloss. It's also available in six shades so it's easy to find one to suit different skin tones. I also love the unique, easy-to-use twist-up crayon design - it makes application quick and efficient, which is essential if I'm on a shoot.

3. Lord & Berry Silhouette Invisible

Lip Liner, £7.49, €9.49: Visibly lined lips are a huge no-no so this invisible lipliner is a revelation. It defines and shapes lips, and its soft and creamy texture has a long-lasting effect. The unique combination of make-up and treatment is so useful when working with clients – I can use it on its own to define the natural lip line, or apply around the lips to fill in fine lines and stop lipstick or lipgloss bleed.

4. Lord & Berry Smudgeproof Eye Pencil in Black Brown, £6.99, €8.29:

One of my hero products. This is the perfect liner if you are always on the go as it lasts from morning until night. The formula is suitable for creating graphic-style eye shadow, too. Long-lasting, waterproof and smudgeproof - what more could you ask for in an eyeliner?

5. Lash FX Sensitive Adhesive, £29.99,

Can't live without

> €35.99: A good adhesive like this is important if you want lashes to stay put. I love this one because it has a really low odour and can be used on all clients, including those with sensitive eyes. It's also ideal for lower lash application - which is great if you're going for a dramatic look.

> > 6. Ardell Natural Demi Wispies Black, £2.89,

€3.89: I always recommend having a strip of false eyelashes in your kit - these natural-looking lashes are perfect for most clients looking for volume. Plus, they're neither too long or too short.

7. Hi Brow Deluxe Professional Tweezers, £9.99, €10.99: An essential for every make-up artist's kit, these tweezers have the best precision slant tip for removing hairs, and they're always useful for applying false evelashes.

8. Lord & Berry Bronzer in Brick,

£15.49, €18.49: This bronzer has a silky formula and a slight shimmer, giving the skin an instant, natural looking glow and pick-me-up in just a few sweeps. Also, it doesn't disappear by the end of the day which is a bonus for my busy clients.

9. Carmex Lip Balm Pot, £2.39, €2.79:

I take this everywhere with me it's the ultimate multitasker. The transparent balm shields clients' lips against the drying effects of sun, wind, cold and pollution – and is instantly comforting if they have chapped lips. It's moisturising, softening, soothing, healing and protecting - and it has a nice tingle! I use it daily on bare lips or over lipstick for a light sheen. wowbeauty.co.uk 🛯
